

TEC® AccuColor® Premium Unsanded Grout

Perfect for projects with delicate tile surfaces, such as marble or natural stones that could be scratched by sanded grout during installation. AccuColor® Premium Unsanded Grout is formulated to provide highly wear-resistant, smooth, color consistent, non-shrinking, dense joints, even in hot, dry conditions or with highly absorptive tile. It is designed for small grout joints up to 1/8" (3 mm), typically used for indoor or outdoor walls, wet area enclosures and backsplashes.

AccuColor® Premium Unsanded Grout is a polymer-enhanced, Portland cement grout that meets ANSI A118.6 Specifications for Commercial Cement Grout, and ANSI A118.7 Specifications when mixed with TEC® Acrylic Grout Additive in place of water. It can contribute to LEED® project points, with 0 VOC.

For a flawless finish, also consider TEC® AccuColor® Unsanded Siliconized Acrylic Caulk. This caulk is precisely color-matched to the 32 AccuColor® Premium Unsanded Grout colors.

AccuColor® Premium Unsanded Grout is Available in:

- 9.75 lb. (4.42 kg) plastic bags (4 bags/case)
- 25 lb. (11.34 kg) moisture-resistant bags (Special Order Size*)
- Custom Colors, in 25 lb. size†

* Special Orders require a minimum order and 14-day lead time—ask your TEC® representative for more details.
 † Custom Colors require a minimum order and longer lead time—ask your TEC® representative for more details.

Product contains zero VOC.
